```
B                           G#m
   When the walls feel to tall
                                 E
I remember how you made them fall
                      F#
at the sound of Israels roar
B                           G#m
   when the waters feel to deep
               E
underneath my feet I remember
               F#
how you parted the sea
```

Chorus
```
                 B                 G#m
Cause you are all I need you are everything
      E                        F#
I'm broken but I'm beautiful inside
                                 B
 because you have washed me white
               G#m
 when my world falls apart
                      E
and the light fades to dark
       G#m            F#           E
you remind me your not done with me yet
                      G#m  F#         E
cause there's still a fire burning in this chest Jesus
